*We do everything we can to ensure that the prices on our and other companies websites are correct, and we try to keep our prices constant. Sometimes we need to change the cost of a product, either up or down. **Prices may be changed at any time without further notice.** We reserve the right to change our product's prices at any time without further notice.

*Lead time is 4 weeks unless noted. Check item description for estimated lead time.

Team Technologies, Inc.'s primary focus and goal is customer satisfaction. With that goal in mind, we will consider all reasonable requests for the return of merchandise. In general, returns will be governed by the limitations set forth below:

- Merchandise over 1 year from date of shipment is non-returnable.
- Merchandise less than 1 year old is subject to the following terms:
 - 25% restocking fee if the merchandise can be put back into stock as received.
 - Additional charges will be incurred for re-working product.
 - Merchandise returned unusable/expired will not receive credit.
 - Special products with a limited expiration date must be returned within 60 days after shipment from our plant to be eligible for any refund.
 - Customers must obtain a return authorization number (RA) before returning any goods, otherwise goods will not be accepted.
 - The company returning product is responsible for freight charges for returned merchandise. Team Technologies, Inc. will reject all returned goods if shipped on a "collect" basis.
 - Team Technologies, Inc. is not responsible for any freight damaged products not under our assigned carrier. Freight damage claims are to be directed to the freight carrier versus Team Technologies, Inc.
- Obsolete products are final sale. No returns.
- Credit for returns will be at original purchase price or at current price, whichever is lower.
- If applicable, credit will be given once merchandise has been received by Team Technologies, Inc. and confirmed it meets the requirements listed above.
- Current customer contract language which is specific to returns will supersede the above general provisions.

Helping Those Who Help Others...

is what drives TEAM Technologies to bring together a portfolio of solutions to solve the Oral Healthcare Industries' most complex challenges.

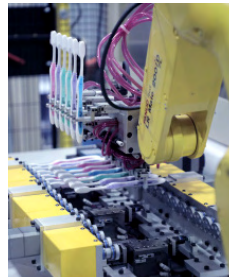

From concept to commercialization, TEAM Technologies offers the technology and support services for every stage of the development and manufacturing processes for your oral device.

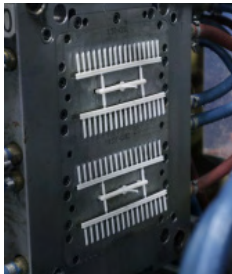

Product Design & Development

Whether you are in need of a finished piece or OEM part, our team of R&D and design center experts offers the ability to help bring your vision to life with capabilities that include piece and part engineering, mold design engineering, rapid prototyping, quick sampling, equipment design, and customization.

Assembly

TEAM Technologies streamlines the production process by offering manual, semi-automated and fully automated component and finished device assembly. This includes multiple-piece part assembly for custom and standard equipment, sonic welding, multi-functional applications such as RFID, kitting, as well as cleanroom and white room assembly.

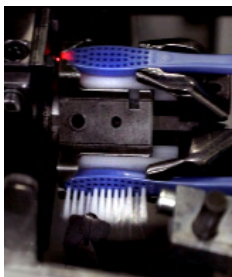

Molding

To help meet the highest standards while remaining cost competitive, TEAM Technologies utilizes state-of-the-art equipment and expertise to provide mold fabrication and maintenance injection molding, two and three component molding, insert molding, thin wall molding, as well as rubber compression molding.

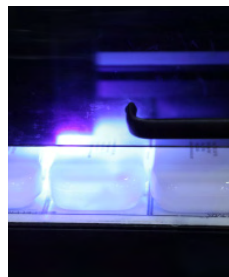

Packaging

TEAM Technologies delivers on our customers' needs for high-speed, custom packaging solutions. We offer form, fill, and seal blister packaging, RF seal, cello wrapping, unit box cartooning, auto bagging, custom blisters, and promotional corrugated builds and also can provide cleanroom and white room assembly services.

Bristling

Producing brushes for today's healthcare, oral care, and dental care industries requires a unique set of capabilities and technologies. That's why TEAM Technologies provides staple-set to allow for single to hundreds of tufts, molded-in (IMT, AFT, and custom versions), to accommodate a wide variety of brushes.

Decorating

From imprinting your product with your brand name, logo or design, to filling tubes or bottles with pastes or solutions, TEAM Technologies provides the finishing touch. Our services include digital imprinting, laser decorating, pad printing, hot stamping, sleeving, and flocking as well as mixing and filling for products such as denture adhesives and sprays.

Finished Products Include:

Class-Leading Toothbrushes (Staple-Set & In-Molding) | Electric Brush Head Replacements
Disposable Prophylaxis Angles | Prophylaxis Cups | Flossers & Dental Picks | Denture Paste | Orthodontic Kits
Professional Whitening Kits | Retail & Shelf Ready Packaging | Paste & Mouthwash Bundling
